

Magellan X to be a part of Oil and Gas Automation and Technology Week

Hyatt Regency Intercontinental Airport Hotel - Houston, Texas, United States

Singapore, 11 January 2023 - Magellan X is proud to be a gold sponsor of Oil & Gas Automation and Technology Week held from 14 to 15 February 2023. We take pride in presenting **Captain Daniel Alcantara and Alister Leong**, our two renowned thought leaders, as the key expert speakers at the event.

The theme, “**Integrate Emerging Technology and Drive Digital Innovation for Accelerated Business Transformation**” of this event aims to highlight common challenges in the digital transformation of the sector. This includes informative sessions where prominent leaders in the sectors and industry experts would share their valuable insights on digital changes and accelerating business transformation.

Key highlights of the event

- **Roundtable Think-tank Discussion on Day 1 at 2.20 p.m.** – Captain Daniel Alcantara and Alister Leong will be the moderators for the interactive session on the topic, ‘**Putting Emphasis on the "S" within Worker Safety: Adopting technology and digital solutions to fulfil ESG obligations**’
- **Keynote Presentation on Day 2 at 12.30 p.m.** - Captain Daniel Alcantara will deliver an insightful presentation on the topic, ‘**ESG Technologies: Putting Emphasis on the "S" within Worker Safety**’.
 - Understanding and identifying the surge in incidents
 - Why is there a critical need for worker safety solutions?
 - Where are we now with digital safety management systems and wearables?
 - How will our solution be deployed for Oil, Gas and Shipping Industries: Comparing results before and after to quantify long-term benefits
- **Technology Demonstration Session on Day 1 at 3.20 p.m.** – Learn more about our ESG solution and technology to solve some of your unique challenges.

About Magellan X

Magellan X is a global leader in Environmental, Social and Governance (ESG) technologies, where it develops and invests in oil & gas, mining, chemicals, and maritime sectors. We are backed by MISC and BCG Digital Ventures. Magellan X technology solutions address our customers varying ESG needs and better position them to meet their sustainability goals through IoT devices that accurately capture as real-time data flows and produce analytics using A.I. Our suite of purpose-built solutions covers **ecoMax** - Emission Optimisation, **SOL-X** - Worker Safety and **Propeller** - Inventory Optimisation.
